

Wired Bed Light Motion Sensor

Indigo Care has an exclusive Wired Motion Sensor Bed Light for fall prevention which is designed to safely guide your residents in the dark, and activate your Nurse Call System whenever the resident leaves their bed. The device turns on the LED light automatically when it detects human motion, no matter what time of day or night, and this in turn activates your nurse call system. The very low energy consumption LED lights enable the residents to see their surroundings, therefore potentially preventing the residents from a fall. The PIR has a dimmer controller to adjust the LED brightness from a soft glow to a warm bright light. It also has a light timer to allow it to be customized for your resident's use. The light will stay on as long as there is motion in front of the device. Depending on the timer setting of 30 sec, 130 sec, or 380 sec, the light will switch off automatically when no motion is detected. The lights are mains powered so there are no batteries or recharging to worry about. To use, simply mount the LED strip under your bed or preferred location. The Single LED strip is 1.2 metres but it can also be cut to a length to suit whatever space is needed. A small Y cable will connect the LED strip and the Transmitter Junction Box to the PIR motion sensor which is powered by the included power adaptor. A larger Y cable is then connected to the Transmitter Junction Box and also to your Nurse Call System's Call Point. Everything you need is included in the kit: 1 x Junction Box, 1 x PIR sensor, 1 x small Y Cable, 1 x large Y Cable, 1 x light strip and 1 x DC power adaptor.

Features:

- Dimmable Switch
- Timer Setting: 30 seconds, 130 seconds, 380 seconds
- Single Kit: 45 LEDs – 1.2 metre
- Last up to 100,000 lighting hours
- Wired via Y Cable

Specifications:

- LED Strip Power: 12VDC (Max 3W per LED strip)
- Colour Temperature: 2700-3000K
- Infrared Body Temperature Sensor
- Inductive Range 3.6 meter and 100 degrees
- Dustproof and Waterproof Grade: IP65
- LED Strip Dimensions: 1200 mm (L) x 7.5 mm (W) x 2.5 mm (H)

All of our products come with a 12 month warranty and a 30 day money back guarantee
