Indigo Care's Dual Network Alarm System is exclusive design to suit Homecare support. When the device is triggered, the control panel will light-up with selected sound volume to alarm the care giver. It is programmable to call and send SMS messages to 6 preset telephone numbers. It has allocated 2 separate telephone lines for PSTN landline and monitoring centre.

The set-up is done using the touch screen control panel or mobile phone App supported by IOS and Androids. All function relates to Arming, Disarming and Emergency can be done via control panel, remote control and mobile phone App. With built-in rechargeable battery, it will continue to work during external power outage. Other great features include internal powered clock, record history of recent 72 disarmed and 102 alarm activities and ISD voice mailbox for playback message when alerted.

There are other very useful features suited for Smart Home application. The User Manual explains each of these features and setting-up. The mobile phone App is free but SIM card is not provided.

This device overcomes the problems associate with time and distant. With the "GSM Smart Alarm System" App, you are now in-control of your alarm system anywhere in the world.
