## PRODUCT CODE:

**Control Unit: MED-NC-ODL-WT-V1.0**

Indigo Care's Wireless Outside/Over Door Light (ODL or Strobe) is an exclusive ID coded RF Receiver for interfacing to nurse call systems whether in the Hospitals, Aged Care Facilities or Homecare. When the device is triggered, the bright LED light and sound will activate continuously to alarm the care giver.

Simply plug ODL into 9VDC adaptor for power. Then teach in the required wireless devices as shown in instructions. The wireless device will now trigger ODL when activated within the transmitting area. To turn-off the light and sound, push and hold down the RED switch for 1 sec.
