

Nurse Call Pendant Silicon Two Button

MED-NC2B/SILT1 (Tip Common)

MED-NC2B/SILT3 (Sleeve Common)

Indigo Care has designed the Silicon Two Button Nurse Call Pendant with the elderly resident in mind. This model is water and dust proof for infection control with a rating of IP67 and has added Antibacterial, Antifungal properties of Nano Silver particles. The silicon pendant provides an easy soft feel for the patient. The silicon also helps the pendant to stay on the patient's bed or in their hand. Its ergonomic design suits a left or right hand grip and it has two buttons. The call button is green with a cross and has a Braille imprint for visually impaired patients/residents. The yellow button is to be used so a resident can switch a light on or off via the pendant. The pendant is backward compatible with most existing systems in the industry.
