

Wireless PIR Motion Sensor

TGA Register
RCM Approved
AS/NZS 61000.6.3.2012

PRODUCT CODE: MED-NC-MS-02-WT

Indigo Care provides a Wireless 2-in-1 PIR Alarm Motion Sensor with wide and narrow beam and has an exclusive ID encoded RF Transmitter which communicates with the Wireless Receiver Box (RRU) or the Universal Call Point (UCPV5.1).

The motion sensor can be used as either an Out Of Bed or Room Entry/Exit sensor. It can be wall mounted using the attached bracket, with swivel arm for 360 deg rotation. The motion sensor is activated when the resident crosses the beam's path. The unit has a separate ON/OFF switch to alleviate false trigger. The PIR set includes a 9 VDC Adaptor, even though it can also operate by using a 9V battery (not recommended).

Simply teach in the PIR to RRU or Dual Function Call Point by following the printed instructions. The PIR will now trigger the call point when activated within the transmitting area.

KEY SPECIFICATIONS:

- Nurse Call and DC Output
- Frequency : 433.92MHz
- Transmits up to 30m (line of sight)
- Power on/off switch
- Horizontal Beam Angle
 - 6 deg (narrow beam)
 - Up to 80 deg (wide beam)
- Warranty: 12 months

PRODUCT ACCESSORIES:

- Wireless Receiver Box
- Floor Sensor Mat
- Wireless Bed Mat
- Wireless Chair Mat
