X= 3 for Tip and Sleeve (common) wiring

Indigo Care's Wireless Receiver Box (RRU) is an exclusive ID coded RF Receiver for interfacing to Nurse Call Points in Hospitals and Aged Care Facilities that conform to AS3811. This Receiver can be paired with 5 wireless Transmitters plus 3 Wired call devices. Simply plug RRU into Nurse Call Point socket and pair with the required wireless Transmitter (follow instructions printed on RRU). The wireless Receiver will now trigger the call point when activated within the transmitting area. The receiver box has additional 6.35mm jack socket and RJ12 for interfacing with hard wired devices such as pendants and sensor mats. The wireless Receiver has a pendant-out alarm feature design for wired pendant.

The Receiver (Blue Label) has low battery warning plus in-built audio tone for pairing and pendant out alarm.
